## Toys On the Book Shelf A Logic Puzzle

The Little Girl loved Lumphy, StingRay, and Plastic the most of all of her toys. She had other, more delicate, toys on her book shelves. They were a musical microphone, a glass bell, a baby doll, a wizard doll, a music box, and a remote control car. She put each one on its own shelf with the books.

Use the clues below to help you put each toy on the correct shelf. Use the grid at the bottom to help you match the toys with their correct shelf. Cut and paste each toy from the bottom onto its correct shelf.

### Clues:

1. One of the dolls was on the top shelf.
2. The music box was on the lowest shelf, just below the microphone.
3. The remote control car was on the shelf above the baby doll.
4. The bell was on the third shelf just below a doll.
